Codewars

This repository contains my solutions to challenges on Codewars.

Branches

- Main: Initially empty, to serve as the starting point for each kyu challenge.
- 8kyu: Contains all the solutions and tests for the 8kyu challenges I'm currently working on.

Setup

To run this project follow these instructions:

1. Clone it

```
git clone https://github.com/yosmelchiang/codewars
cd codewars
```

2. Checkout the branch corresponding to the Codewars level:

```
git checkout [branch name]
```

Replace [branch-name] with the relevant branch for the level (e.g., 8kyu for 8kyu challenges).
